2017-02-07 Retrospective

- Created by Mike Wirth on Feb 09, 2017

Team reviewed the results of Sprint 0, executed a START, STOP, CONTINUE review.

Top 3 findings are.....

1)   Improve our use of GitHub

- Stop inconsistent branching
- Stop committing code without a pull request or communication
- Start linking the branch name with Jira stories
- Start using feature branches and code reviews
- Start more proactive code reviews and pull requests

2)   Communication and Standups

- Continue keeping the daily standups tight and raising blockers
- Continue brief and early morning standups
- Start reporting by story # in the standups
- Continue to the point and 15 minute limit standups
- Continue providing concise feedback
- Continue communicating
- Continue maintaining direct communication

3)   Using Jira

- Stop forgetting to move stories to the right in status
- Tighten up on using Jira
- Move stories through Jira and the physical board consistency
